ST MARY'S CHURCH, SOUTHAMPTON

Brief Description

The project involved modifications to the building services to allow the refurbishment of the Church, including the provision of a new kitchen and servery, refurbishment of the existing WCs and refurbishment of the Vestry to provide accommodation for a variety of uses including a new children's area.

MTA maintained close liaison with the AV specialist to provide a new central stage area with sound reinforcement for voice and music, video screens and lighting control.

The existing heating system was modified and repaired.
